COURT CLERK'S OFFICE - OKC  
CORPORATION COMMISSION  
OF OKLAHOMA

**APPLICATION**

1. Parties: Applicant is Continental Resources, Inc., P.O. Box 269091, Oklahoma City, Oklahoma 73126. The attorney for Applicants is Karl F. Hirsch of the law firm Hirsch, Heath & White, PLLC, 901 Cedar Lake Boulevard, Oklahoma City, Oklahoma 73114; (405) 235-1768. Applicant is the owner of the right to drill a well into and produce hydrocarbons from the hereinafter named common source of supply. The name and address of each party being named as a respondent to this Application is shown on Exhibit "A" attached hereto and made a part hereof.

2. Allegation of Facts:

2.1 Applicant proposes the creation of the Driftwood Goddard Unit underlying the captioned property and as outlined and described on Exhibit "B" attached hereto.

2.2 The location of the wells existing in the Unit and offsetting the Unit, the operators of those wells and the common sources of supply in which the wells are currently completed are set forth in Exhibit "C" attached hereto. The location of the wells, including abandoned and drilling wells and dry holes within the Unit are set also forth on Exhibit "C" attached hereto. The method of enhanced oil recovery to be utilized in this Unit will not require the permanent conversion of any wells to injection wells and until the project is commenced, it is unknown if additional wells will be drilled in the Unit Area.

2.3 The Goddard common source of supply is the lower recognized shale member of the Springer. It occurs at a depth of approximately 11,733 feet below the surface as found on the electric log for the EW Nunn 1 Well (API #350512103) located in Section 24, Township 7 North, Range 6 West. A portion of the log of the EW Nunn 1 Well completed in this common source of supply is attached hereto as Exhibit "D".

2.4 This enhanced oil recovery project is intended to produce oil not recoverable through primary recovery methods. Due to primary production, the reservoir pressure has declined below the bubble point, allowing free gas to be produced and a significant percentage of oil left behind. This enhanced recovery project is designed to inject gas into the reservoir to re-pressurize the reservoir above the bubble point, resulting in increased oil mobility and increased recovery of oil. It is anticipated that compressor facilities will be placed in the Unit Area for the alternative repressurizing of the formation by the injection of gas into a wellbore and then the production of oil and gas from that wellbore. It is anticipated this re-pressuring and production cycle will be repeated many times on each wellbore in the Unit Area until it is no longer providing the desired results.

2.5 Attached hereto as Exhibit "E" is a description of the existing casing program for a typical producing well in the Unit Area. The integrity of the tubing/casing annulus will not be further tested as the injection of gas into the wells will not exceed the original reservoir pressure. The injection medium will be natural gas. Some of the gas will be produced gas from wells in the Unit and additional gas will be purchased in the market. Injection rates are anticipated to be approximately 6 to 10 MMcf per day per well for three months and then the well will be produced for three months and then the cycle will be repeated.

2.6 The unitized management, operation and further development of the common source of supply described herein is reasonably necessary in order to effectively carry on the secondary recovery operations described herein and in the plan of unitization and the joint effort is calculated to substantially increase the ultimate recovery of oil and gas from the common source of supply.

2.7 The methods of operation described in the plan are feasible, will prevent waste and will with reasonable probability result in the increased recovery of substantially more oil and gas from the common source of supply than would otherwise be recovered.

2.8 The estimated additional cost of conducting such operation will not exceed the value of the additional oil and gas recovered.

2.9 Such unitization and adoption of the methods of operation described in the plan is for the common good and will result in the general advantage of the owners of the oil and gas rights within the common source of supply or portion thereof directly affected.

2.10 An order creating the Driftwood Goddard Unit providing for unitization and unitized operation of the common source of supply named herein is fair, reasonable, equitable and

necessary or proper to protect, safeguard and adjust the respective rights and obligations of the several persons affected, including royalty owners, owners of overriding royalties, oil and gas payments, carried interests, mortgagees, lien claimants, and others, as well as lessees.

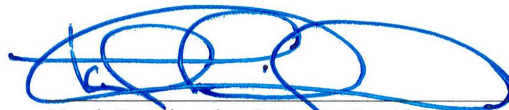

2.11 A copy of the recommended Plan of Unitization is attached hereto as Exhibit "F". A copy of the tract participation factors is attached to the Plan as Exhibit "A" and the unitization parameters are attached to the Plan as Exhibit "C". Among many other provisions, the Plan of Unitization provides for the:

- (a) method of operation and management of Unit operations;
- (b) allocation of unitized substances among the several separately owned tracts, including the method for the distribution within the tracts and the method of distribution for horizontal wells where the lateral is only partially in the Unit Area;
- (c) method of calculating royalty on outside substances;
- (d) adjustment of investments;
- (e) election of lessees as to participation in the Unit development; and
- (f) allocation, payment and collection of unit expenses.

3. Legal Authority: Title 52, Sections 287.1 through 287.15.

4. Relief Sought: Applicant requests the Corporation Commission issue an order creating the Driftwood Goddard Unit covering the captioned property, providing for the unitization and unitized operation of the common source of supply named herein, possibly providing the order be made effective on a date prior to the signing thereof, that any spacing pertaining to this common source of supply within the unit area be suspended by the unitization order except as otherwise provided in the Plan of Unitization, that Continental Resources, Inc. or some other party requested by Applicant be approved as unit operator, and for such other and further relief as the Commission deems fair and reasonable.

PLAN OF UNITIZATION  
DRIFTWOOD GODDARD UNIT  
GRADY COUNTY, OKLAHOMA

This Plan of Unitization is entered into as of the \_\_\_\_ day of \_\_\_\_\_, 20\_\_\_\_, by the parties who have signed the original of this instrument, a counterpart thereof or other instrument, agreeing to be bound by the provisions hereof, or who are otherwise bound to the provisions hereof by another instrument or Commission Order.

WITNESSETH:

WHEREAS, the following shall constitute the Plan of Unitization applicable to the - Driftwood Goddard Unit, Grady County, Oklahoma, created pursuant to authority of Sections 287.1-287.15, inclusive, Title 52, Oklahoma Statutes and;

WHEREAS, the purposes of the Plan of Unitization are the unitized management, operation and further development of the Unitized Formations as herein defined, all to the end that a greater ultimate recovery of Oil and Gas may be had therefrom, that waste be prevented, and the correlative rights of the respective owners protected;

NOW, THEREFORE, in consideration of the premises and of the mutual agreements herein contained, it is agreed as follows:

ARTICLE 1

DEFINITIONS

As used in this Plan of Unitization, the terms herein shall have the following meaning:

1.1. Commission means the Corporation Commission of the State of Oklahoma.

1.2. Custody Transfer Points means, with respect to oil, the outlet flange of the oil storage tanks closest to the wellhead from which the oil was produced and, with respect to gas, the outlet flange of the custody transfer meter that is associated with the wellhead from which the gas was produced and to which one or more purchasers or gas midstream companies have attached their pipelines. If the Operating Committee develops and installs midstream infrastructure, facilities and/or plants to be owned by the Unit for the benefit of the Joint Account, then the Custody Transfer Points of impacted Unitized Substances shall be relocated to the outlet flanges

of such midstream infrastructure, facilities and/or plants.

1.3. Effective Date means the time when the Unit takes over and commences Unit Operations.

1.4. Joint Account has the meaning prescribed in Accounting Procedure Joint Operations attached hereto as Exhibit E.

1.5. Lessee means an owner of an interest in Unitized Substances by virtue of a lease, operating agreement, fee title, or otherwise including a carried interest, which interest is chargeable with and obligated to pay or bear, either in cash or out of production or otherwise, all or a portion of the costs of drilling, developing, producing, and operating the Unitized Formation. The owner of Oil and Gas Rights that are free of lease or other instrument conveying the working interest to another shall be regarded as a Lessee to the extent of 7/8 of its interest in Unitized Substances, and as a Royalty Owner with respect to its remaining 1/8 interest therein.

1.6. Oil and Gas means not only oil and gas as such in combination one with the other, but means oil, gas, casinghead gas, casinghead gasoline, condensate or other hydrocarbons or associated minerals, or any combination or combinations thereof.

1.7. Oil and Gas Rights means the right to explore, develop, and operate lands within the Unit Area for the production of Unitized Substances, or to share in the production so obtained or the proceeds thereof.

1.8. Operating Committee means the committee as constituted under Article 11 of this Plan of Unitization.

1.9. Outside Substances means all substances initially obtained from any source other than the Unitized Formation, which are injected into the Unitized Formation, and which may be partially or wholly recovered at the same time Unitized Substances are produced from the Unitized Formation.

1.10. Person means any individual, corporation, partnership, common law or statutory trust, association of any kind, the State of Oklahoma, or any subdivision or agency thereof acting in a proprietary capacity, guardian, executor, administrator, fiduciary of any kind, or any entity capable of holding an interest in the Unitized Formation.

1.11. Post-Production Adjustment means any deduction from or adjustments used to calculate the proceeds from the sale of Unitized Substances to the extent such deductions and adjustments are attributable to treating, dehydrating, compressing, gathering, blending, processing, storing, transporting, or otherwise marketing the Unitized Substances beyond the Custody Transfer Points.

1.12. Royalty Owner means an owner of an interest in production of Unitized Substances or proceeds thereof that has been (a) provided or ascribed to a mineral interest owner by statute, rule, order, or operation of law, or (b) granted to or reserved by a mineral interest owner exclusive of (i) any working interest held by a Lessee or (ii) Subsequently Created Interest carved from the working interest.

1.13. Singular and Plural-Gender Unless the context otherwise clearly indicates, words used in the singular include the plural, the plural includes the singular, and the neutral gender includes the masculine and feminine.

1.14. Subsequently Created Interest means any interest carved from a working interest other than a royalty interest. Any non-participatory interest created after February 16, 2022 by a working interest owner for the benefit of a mineral interest owner in excess of a one-eighth (1/8) royalty interest shall be a Subsequently Created Interest.

1.15. Tract means each parcel of land described as such and given a Tract number in Exhibit A. These Tracts are also indicated on the map included as Exhibit B.

1.16. Tract Participation means the percentages shown on Exhibit A for allocating Unitized Substances to a Tract under this Plan of Unitization. Exhibit C details the equation used to determine the participation of each Tract.

1.17. Unit means the Driftwood Goddard Unit.

1.18. Unit Area means the lands described by Tracts in Exhibit A and shown on Exhibit B.

1.19. Unit Equipment means all personal property, lease and well equipment, and other facilities and equipment taken over or otherwise acquired or developed for the Joint Account of the Lessees for use in Unit Operations.

Unit Expense means any and all cost, expense, or indebtedness incurred by the Unit or Unit Operator pursuant to this Plan of Unitization for purposes of exploring, drilling, operating and producing Unitized Substances from the Unit to Custody Transfer Points located on the Unit. Unit Expense shall not include any Post-Production Adjustment.

1.21. Unit Operations means all operations conducted by the Unit or Unit Operator pursuant to this Plan of Unitization for or on account of the development and operation of the Unitized Formation for the production of Unitized Substances.

1.22. Unit Operator means the Lessee or Person designated to develop and operate the Unitized Formation, acting as Operator and not as a Lessee.

1.23. Unit Participation of each Lessee means the sum of the percentages obtained by multiplying the working interest of such Lessee in each Tract by the Tract Participation of such Tract.

1.24. Unitized Formation means that single common source of supply of Oil and Gas as it underlies the Unit Area, commonly known or described as the Goddard formation, being the stratigraphic equivalent of the following described strata:

The interval lying between the depths of 11,733 feet and 11,808 feet below the surface as found on the electric log for the EW Nunn 1 (API 35051212030000) Well located in Section 24, Township 7N, Range 6W, Grady County, Oklahoma.

2.1. Exhibits. Attached hereto are the following exhibits which are incorporated herein by reference.

- 2.1.1. Exhibit A which is a schedule that describes each Tract in the Unit Area and shows its Tract Participation.
- 2.1.2. Exhibit B, which is a map that shows the boundary lines of the Unit Area and Tracts therein.
- 2.1.3. Exhibit C, which details the equation used to determine the participation of each Tract.

2.1.7. Exhibit F, which contains insurance provisions applicable to Unit Operations.

2.2. Correcting Errors. The shapes and descriptions of the respective Tracts have been established by using the best information available. If it subsequently appears that any Tract should be: (i) divided into more than one Tract because of diverse royalty or working interest ownership on the Effective Date hereof, (ii) modified due to accretion or avulsion, or (iii) modified because any error has been made in the preparation of exhibits or information shown thereon, Unit Operator, with the approval of the Operating Committee, may correct the mistake, or otherwise revise the exhibits, to conform to the facts. The revision shall not include any re-evaluation of engineering or geological interpretations used in determining Tract Participation. Each such revision of an exhibit shall be effective at 7:00 A.M. on the first day of the calendar month next following the filing of the revised exhibit with the Secretary of the Commission, or on such other date as may be determined by the Operating Committee and set forth in the revised exhibit.

### ARTICLE 3

#### CREATION AND EFFECT OF UNIT

3.1. Oil and Gas Rights Unitized. On the Effective Date and subject to the provisions of this Plan of Unitization, all Oil and Gas Rights of Royalty Owners in and to the lands described in Exhibit A, and all Oil and Gas Rights of Lessees in and to the lands described in Exhibit A, are hereby unitized insofar as the respective Oil and Gas Rights pertain to the Unitized Formation, so that Unit Operations may be conducted as if the Unitized Formation had been included in a single lease executed by all Royalty Owners, as Lessors, in favor of all Lessees, and as if the lease had been subject to all of the provisions of this Plan of Unitization.

3.2. Personal Property Excepted. Subject to the provisions of Article 16, all lease and well equipment, materials, and other facilities heretofore or hereafter placed by any of the Lessees on the lands covered hereby shall be deemed to be and shall remain personal property belonging to and may be removed by the Lessees.

3.3. Amendment of Leases and Other Agreements. The provisions of the various leases, agreements, division and transfer orders, or other instruments covering the respective Tracts or the production therefrom are amended to the extent necessary to make them conform to the provisions of this Plan of Unitization, but otherwise shall remain in effect, specifically including but not limited to provisions regarding royalty percentages, valuation and distribution. The division orders shall cover and apply to that fraction of the production from the Unit Area as is allocated to such separately owned Tract in Exhibit A (effective as of the Effective Date of the Unit) and purchasers of production are authorized to pay for the Unitized Substances in accordance with percentages set forth in Exhibit A without procuring new division orders.

3.4. Continuation of Leases and Term Royalties. As of the Effective Date, operations conducted with respect to the Unitized Formation on any part of the Unit Area, including drilling operations, or production from any part of the Unitized Formation, shall be considered the same as operations upon or production from each Tract, and such operations or production shall constitute compliance with, and continue in effect, any such lease, term royalty, or other agreement covering lands within the Unit.

3.5. Titles Unaffected by Unitization. Nothing herein shall be construed to result in the transfer of title to the Oil and Gas Rights by any Person to any other Person or to Unit Operator. The intention is to provide for the cooperative development and operation of the Tracts and for the sharing of Unitized Substances as herein provided.

3.6. Injection Rights. Royalty Owners and Lessees hereby grant Unit Operator the right to inject into the Unitized Formation any substances in whatever amounts the Operating Committee deems expedient for Unit Operations, together with the right to drill, use, and maintain injection wells on the Unit Area, and to use for injection purposes any non-producing or abandoned wells or dry holes capable of being completed or recompleted in the Unitized Formation, as well as any producing wells completed in the Unitized Formation.

3.7. Cooperative Agreements. The Operating Committee, in the interest of conservation and to increase the recovery of Unitized Substances, may authorize and empower the Unit Operator to execute agreements with the owners of working interests in lands outside the Unit Area for cooperative development, operating, fluid injection or similar programs with respect to portions of the formations unitized herein and which are outside the Unit Area. Any such agreement shall make provision for the drilling or conversion, equipping and operation of compensating fluid injection wells in the Unitized Formation and adjoining portions of formations unitized herein outside the Unit Area. The rate of fluid injection into such wells inside the Unit Area shall be approximately equal to the rate of injection into such wells outside the Unit Area. Any such cooperative agreement shall in no way affect or alter the Tract participation established hereunder, nor shall the same provide for the sharing or allocation of production as between the Unit Area, as herein defined, and any outside lands except as provided in Article 5.

3.8. Indemnity. Lessees shall retain all risk and liability of whatsoever nature connected with operations conducted on the Unit Area prior to the Effective Date and agree to indemnify, defend and hold Unit Operator and all other Lessees harmless from all liabilities, penalties, claims, causes of action, demands, lawsuits, and expenses arising therefrom.

## ARTICLE 4

### PLAN OF OPERATION

4.1. Operating Methods. To the end that the quantity of Unitized Substances ultimately recoverable may be increased and waste prevented, the Unit Operator, under direction of the Operating Committee, shall with reasonable diligence and in accordance with good engineering and production practices, engage in enhanced recovery operations in the Unitized Formation.

4.2. Change of Operating Methods. Nothing herein shall prevent the Operating Committee from discontinuing or changing in whole or in part any method of operation which, in its opinion, is no longer in accord with good engineering or production practices. Other methods of operation may be conducted or changes may be made by the Operating Committee from time to time if determined by it to be feasible, necessary, or desirable to increase the ultimate recovery of Unitized Substances.

## ARTICLE 5

### USE AND SALE OF OUTSIDE SUBSTANCES

5.1. Injection Rights. Royalty Owners and Lessees hereby grant Unit Operator the right to inject into the Unitized Formation any substances, including Outside Substances, in whatever amounts the Operating Committee deems expedient for Unit Operations, together with the right to drill, use, and maintain injection wells on the Unit Area, and to use for injection purposes any non-producing or abandoned wells or dry holes capable of being completed or recompleted in the Unitized Formation, as well as any producing wells completed in the Unitized Formation.

5.2. Use of Natural Gas as an Outside Substance. To the extent Unit Operator injects natural gas for the benefit of Unit Operations, such gas may be acquired by Unit Operator through transactions negotiated at arm's length with one or more unaffiliated sellers of natural gas. When the injected gas is recovered from the Unitized Formation, it shall be considered an Outside Substance. Proceeds from the sale of natural gas injected and recovered as an Outside Substance shall be treated as a negative production cost offsetting the cost of operation of the Unit, and shall not be included in the valuation of royalties or overriding royalties. Royalties and overriding royalties shall be paid as set forth in Article 6 on Unitized Substances, including enhanced volumes of oil and/or natural gas liquids entrained in Unitized Substances.

5.3. Separating Gas Recovered as an Outside Substance from Gas Produced as a Unitized Substance. This methodology is described in Exhibit D and Exhibit D-1.

## ARTICLE 6

### USE, LOSS, AND ALLOCATION OF UNITIZED SUBSTANCES

6.1. Use of Unitized Substances. Unit Operator may use or consume as much of the Unitized Substances as it deems necessary for Unit Operations, including but not limited to the injection thereof into the Unitized Formation. No royalty, overriding royalty, production, or other payments shall be payable upon, or with respect to, Unitized Substances used, consumed or lost in Unit Operations prior to the first applicable Custody Transfer Meter.

6.2. Tract Participation. The Tract Participation formula is shown in Exhibit C and the Tract Participation of each Tract is shown in Exhibit A.

6.3. Allocation to Tracts. As of the Effective Date, all Unitized Substances that are produced, except those used or consumed in Unit Operations or unavoidably lost, shall be allocated to the Tracts in accordance with the respective Tract Participation effective during the time the Unitized Substances were produced. The amount of Unitized Substances allocated to each Tract, regardless of whether it is more or less than the actual production of Unitized Substances from the well or wells, if any, on such Tract, shall be deemed for all purposes to have been produced from such Tract.

6.4. Distribution Within Tracts. The Unitized Substances allocated to each Tract shall be distributed among, or accounted for to, the Persons entitled to share in the production from such Tract. If any Oil and Gas Rights in a Tract are or become divided and owned in severalty as to different parts of the Tracts, the owners of the divided interests, in the absence of an agreement providing for a different division, shall share in the Unitized Substances allocated to the Tract, or in the proceeds thereof, in proportion to the mineral acreage of their respective parts of the Tract. In the event only part of a drilling and spacing unit is included within the Unit Area and there is a producing well in that drilling and spacing unit that has remaining primary reserves, the Unitized Substances allocated to that Tract shall be distributed among, or accounted for to, the owners entitled to share in the production from such drilling and spacing unit in the same manner, in the same proportions, and upon the same conditions that they would have participated and shared in the production or proceeds thereof from such separately-owned Tract had said Unit not been organized, and with the same legal force and effect.

6.5. Determination of Unitized Substances for Laterals Partially Within the Unit. If there exists, currently or in the future, a horizontal well, that is producing from the Unitized Formation, but the completed lateral in such horizontal well is located both within and outside of the Unit, then the portion of production from such well equal to the percentage of the completion interval within the Unitized Formation times the total production from said horizontal well less any Outside Substances recovered pursuant to Article 5 will be considered Unitized Substances.

6.6. Taking Unitized Substances in Kind. After Unit Operator has recovered one hundred percent (100%) of Outside Substances previously injected, Lessees and other Persons with a contractual right to take their share of production in kind shall have the right, upon written request as set forth herein, and subject to the requirements for royalty disbursement set forth in section 4 of the Production Revenue Standards Act, 52 O.S. §§ 570.4, to take their proportionate share of Unitized Substances in kind. Upon written request of any Lessee or other Person with a contractual right to take a share of production in kind, the Unitized Substances allocated to each Tract shall be delivered in kind to the requestor. Lessees or Persons exercising a take-in-kind right shall have, at their sole risk and expense, the right to construct, maintain and operate within the Unit Area all necessary facilities for that purpose, provided they are so constructed, maintained, and operated as not to interfere with Unit Operations. Any extra expenditures reasonably incurred by Unit Operator as a result of a Lessee's or Person's exercise of a take-in-kind right shall be borne by the requestor.

6.7. Production Where Title is in Dispute. If the title or right of any Person claiming the right to receive in kind all or any portion of the Unitized Substances allocated to a Tract is in dispute, then Unit Operator, at the direction of the Operating Committee, shall either:

- a. Require the Person to whom such Unitized Substances are delivered or to whom the proceeds thereof are paid, furnish security for the proper accounting therefore to the rightful owner if the title or right of such Person fails in whole or in part; or
- b. Withhold and market the portion of the Unitized Substances with respect to which title or right is in dispute, and impound the proceeds thereof until such time as the title or right thereto is established by a final judgment of a court of competent jurisdiction or otherwise to the satisfaction of the Operating Committee, whereupon the proceeds so impounded shall be paid to the Person rightfully entitled thereto, plus any interest actually earned and accrued to the benefit of said proceeds impounded and no more.

6.8. Proceeds from Production of Unitized Substances. Except as set forth herein with respect to the limitation of take-in-kind rights prior to the Unit Operator's full recovery of Outside Substances, this Plan of Unitization shall not govern, alter or impact the duties, responsibilities and standards applicable to the valuation, payment, and distribution of proceeds from production of Unitized Substances as required by or set forth in the Production Revenue Standards Act, 52 O.S. §§ 570.1 through 570.15 and in the oil and gas leases associated with the Unitized Substances.

## ARTICLE 7

### TITLES

7.1. Title Information. Upon request of the Unit Operator, the Lessees of a Tract shall furnish and make available to the Unit Operator abstracts in their possession, and if requested, an abstract brought to the date of the request, together with all other title information in the possession of such Lessees, affecting their title to the Oil and Gas rights in and to such Tract.

7.2. Indemnity. Each Person who may claim to own a working interest or royalty interest in and to any Tract or the Unitized Substances allocated thereto, shall indemnify and hold harmless all other Persons of interest from any loss due to failure in whole or in part, of its title to any such interest; provided that, such indemnity shall be limited to an amount equal to the net value that has been received from the sale or receipt of Unitized Substances attributed to the interest as to which title failed. Each failure of title will be deemed to be effective, insofar as this Plan of Unitization is concerned, as of the first day of the calendar month in which such failure in whole or in part, of its title to any such interest is determined to have taken place. Any legal expense, fees, costs or other charges incurred in the defense of the interest in question shall not be a Unit Expense, it being the intention that each Person be responsible for defending its own title and bear the costs and expenses incurred in connection therewith.

7.3. Changes in Interest. All transfers (by operation of law or otherwise), assignments and conveyances of any interest in, or with respect to, any of the Tracts shall be subject to the terms, provisions and conditions of this Plan. Each such transfer, assignment or conveyance, whether so stated or not, shall operate to impose upon the Person acquiring such interest the obligation of the assignor or grantor with respect to the interest so transferred and shall likewise operate to give and grant to the Person acquiring such interest all benefits attributable hereunder to such interest. No changes of interest will be binding on the Unit or Unit Operator until the notice requirement in Section 24.2 has been satisfied.

Casing shall be included in the inventory for records purposes, but shall be excluded from evaluation and investment adjustment.

16.3. Investment Adjustment. Upon approval by the Operating Committee of the inventory and evaluation, each Lessee shall be credited with the value of its interest in all personal property taken over under Section 16. 1. 1. and 16. 1. 2. and shall be charged with an amount equal to that obtained by multiplying the total value of all personal property taken over under Section 16. 1. 1. and 16. 1. 2. by such Lessee's Unit Participation. If the charge against any Lessee is greater than the amount credited to such Lessee, the resulting net charge shall be an item of Unit Expense chargeable against such Lessee. 16.5. Ownership of Personal Property and Facilities. Each Lessee, individually, shall by virtue hereof own an undivided interest, equal to its Unit Participation, in all personal property and facilities taken over by the Unit Operator pursuant to this Plan of Unitization. All wells delivered to the Unit Operator shall be, (a) in usable physical condition, (b) completed in some portion of the Unitized Formation, and (c) physically separated from formations not a part of the Unitized Formations as of the Effective Date. The Operating Committee will within six (6) months after the Effective Date, determine which wells were in usable physical condition as of the Effective Date. 17.2.2. Legal Expense. Legal expense includes the cost of employing a firm to assist in preparing the Plan of Unitization, and to prepare an application seeking approval of said Plan of Unitization and thereafter appear as counsel for the Unit Operator before the Commission in hearings seeking approval of the Plan of Unitization.

17.2.6. Administrative Fee. Unit Operator shall charge a one (1) time administrative fee of twenty-five thousand dollars (\$25,000.00) for handling all unitization matters.

17.3. Budgets. Before or as soon as practical after the Effective Date hereof, Unit Operator shall prepare a budget of estimated Unit Expense for the remainder of the calendar year and on or before the 15th day of each December thereafter shall provide such a budget for the ensuing calendar year. A budget shall set forth the estimated Unit Expense by quarterly periods.

Budgets shall be estimates only and shall be approved by the Operating Committee pursuant to Section 11.6 by March 31<sup>st</sup> of the calendar year to which the budget pertains and adjusted or corrected by the Operating Committee and Unit Operator whenever an adjustment or correction is proper. A copy of each such budget and adjusted budget shall be promptly furnished to each Lessee.

17.4. Advance Billings. Unit Operator shall have the right to require Lessees to advance their respective shares of Unit Expense by submitting to Lessees, on or before the 15th day of any month, an estimate thereof, with a request for payment in advance. Within thirty (30) days after the receipt thereof, each Lessee shall pay to Unit Operator its share of such estimate.

17.5. Commingling of Funds. Funds received by Unit Operator under this Plan of Unitization need not be segregated or maintained by it as a separate fund and may be commingled with its own funds.

17.6. Unpaid Unit Expense. If any Lessee fails or is unable to meet promptly its financial obligations in connection with the Unit within thirty (30) days after receipt thereof, then Unit Operator will provide Lessee written notice of its failure to meet its financial obligations. If Lessee does not pay all outstanding amounts due, including interest at two percent (2%) over the prime interest rate established and used by J.P. Morgan Chase Bank, or its successor, adjusted quarterly, but not less than twelve percent (12%) per annum, within thirty (30) days of said arrears notice, then the unpaid balance of its share of Unit Expense plus said interest shall be carried and paid either by Unit Operator at Unit Operator's option, or by all non-defaulting Lessees in the proportion that the Unit Participation in effect at the time of each bears to the total Unit Participation of all such Lessees. Lessees so paying shall be reimbursed out of the proceeds from the defaulting Lessee's share of Unitized Substances, without regard to whether that share is derived from the defaulting Lessee's working interest, overriding royalty interest, oil and gas payments, or other interest in excess of a 1/8 statutory royalty interest to which such Lessee's interest is subject until such time as the proceeds of the sale of such defaulting Lessee's share shall equal the following:

- a. One hundred percent (100%) of that portion of the cost of aboveground surface equipment beyond the wellhead connections, including but not limited to stock tanks, separators, treaters, pumping equipment and piping, plus one hundred percent (100%) of the share of the cost of operation of the Unit, subject to interest at two percent (2%) over the prime interest rate established and used by J.P. Morgan Chase Bank, or its successor, adjusted quarterly, but not less than twelve percent (12%) per annum (unless a lesser amount is required by applicable law).
- b. Three hundred percent (300%) of that portion of the costs and expenses of

drilling wells in the Unit Area, including but not limited to staking, well site preparation, rigging up or drilling and reworking, deepening or plugging back and testing and completing the wells; and

- c. Three hundred percent (300%) of that portion of the costs and expenses of the underground pipeline systems, expenses for injected substances and any other incurred expenses which are not recoupable in the further development and operation of the Unit Area.

During the time that any Lessee fails to pay its share of the Unit Expense, the Unit Operator shall be entitled to collect and receive from the purchaser the proceeds from such Lessee's share of the Unitized Substances and the purchaser of proceeds has the right to rely on the representations of Unit Operator as to the amount owed. All credits to any such defaulting Lessee on account of the sale or other disposal of Unit Equipment, or otherwise, shall also be applied against the unpaid share of Unit Expense charged against such Lessee.

17.7. Lessee Participation. As soon as practical after the approval of the Plan of Unitization by the Commission, the Unit Operator shall mail a written notice to all Lessees. The written notice shall advise such Lessee of the following:

- 17.7.1. The Effective Date of the Unit;
- 17.7.2. Initial costs of forming, installing and operating the Unit;
- 17.7.3. That the Lessee may elect to participate or not to participate in the Unit;
  - a. That the Lessee's failure to elect within thirty (30) days from receipt shall be deemed an election not to participate in the Unit;
  - b. That the election, or deemed election, of the Lessee shall apply to any interest owned by the Lessee at the time of their election or deemed election; and
  - c. Those Lessees who elect to not participate or are deemed to have elected not to participate by failure to timely elect shall relinquish their rights in the Unit in consideration of no cash and a total twenty-five percent (25%) royalty interest to absorb all presently existing burdens on the leasehold.
- 17.7.4. The Unit Operator or, at Unit Operator's option, all participating Lessees shall share the non-participating interest, except for interest which is

burdened by greater than twenty-five percent (25%), in the proportion of their Unit Participation.

- 17.7.5. If a Lessee's royalty burden is greater than twenty-five percent (25%), then said overburdened Lessee must participate unless one or more participating Lessees agree to take the overburdened interest. If none of the participating Lessees agree to take the overburdened interest, then the overburdened Lessee must participate.

17.8. Lien. The Unit shall have a first and prior lien upon the leasehold interest and other Oil and Gas Rights in and to each Tract, the interest of the owners thereof in and to the Unitized Substances and all Unit Equipment in possession of the Unit, to secure payment of all Unit Expense charged to and against such Tract; provided that, such lien may be enforced against overriding royalty interests, or other interests that are otherwise not chargeable with such costs and expenses, only in the event the owner of the interest or Person primarily responsible fails to pay such Unit Expense when due, and the Unitized Substances to the credit therefore are insufficient for that purpose. If the owner of any royalty interest, overriding royalty, oil and gas payment, or other interest which under this Plan of Unitization is not primarily responsible therefore pays any part of such Unit Expense for the purpose of protecting such interest, or if the amount of such Unit Expense in whole or in part is deducted from the Unitized Substances credited to such interest, the owner shall, to the extent of such payment or deduction, be subrogated to all of the rights of the Unit and the Unit Operator with respect to the interest primarily chargeable with such Unit Expense. However, all assignments of royalty and overriding royalty interests in existence prior to February 16, 2022 shall remain free and clear of all Unit Expense and free of any lien. The lien herein provided shall be for the use, benefit and protection of the Unit Operator or other Lessees or Persons entitled to receive or share in the monies, the payment of which is secured thereby, and upon a failure of the Unit to enforce such lien, the Unit Operator or other person entitled to the benefit thereof shall be subrogated to the lien rights of the Unit, including the right of foreclosure. The lien may be foreclosed at any time in the manner provided by Law.

17.9. Carved-Out Interest Subject to This Agreement. In the event any Lessee shall, after February 16, 2022 create an overriding royalty, production payment, net profits, or carried interest, or any other interest out of its interest in the Unit Area, such carved-out interest shall be subject to the terms and provision of this Plan of Unitization. In the event the Lessee owning the interest out of which the carved-out interest was created fails to pay any costs or expenses chargeable to such Lessee under this Plan of Unitization and the production to the credit of such Lessee is insufficient for that purpose, the owner of the carved-out interest will be liable for its pro rata portion of all costs and expenses for which the Lessee that created such carved-out interest would have been liable hereunder by virtue of such Lessee's entire original interest just as though such carved-out interest had not been created. In this event, the lien provided in Section 17.8. hereof may be enforced against such carved-out interest in the same manner as the lien was enforceable against

the original interest out of which the carved-out interest was created.

## ARTICLE 18

### PRODUCTION AS OF THE EFFECTIVE DATE

18.1. Oil in Lease Tanks. Unit Operator shall gauge all lease and other tanks within the Unit Area to ascertain the amount of merchantable oil produced from the Unitized Formation in such tanks above the pipeline connections as of 7:00 A.M., on the Effective Date hereof. The oil in the tanks at 7:00 A.M. on the Effective Date shall remain the property of the Persons entitled thereto the same as if the Unit had not been formed. Any such oil not promptly removed may be sold by the Unit Operator for the account of the Persons entitled thereto, subject to the payment of all royalties, overriding royalties, production payments, and all other payments under the provisions of the applicable lease or other contracts. The oil produced after 7:00 A.M. on the Effective Date shall be regarded as Unitized Substances.

18.2. Overproduction. If, as of the Effective Date hereof, any Tract is overproduced with respect to the allowable of the wells on that Tract and the amount of overproduction has been sold or otherwise disposed of, such overproduction shall be regarded as a part of the Unitized Substances produced after the Effective Date hereof, and shall be charged to such Tract as having been delivered to the Persons entitled to Unitized Substances allocated to such Tract.

## ARTICLE 19

### NON-UNITIZED FORMATIONS

19.1. Right to Operate. Any Lessee that now has, or hereafter acquires, the right to drill for and produce oil, gas, or other minerals other than from the Unitized Formation shall have the right to do so notwithstanding this Plan of Unitization. In exercising the right, however, the Lessee shall not unreasonably interfere with Unit Operations. No Lessee (other than the Unit Operator) shall produce Unitized Substances through any well drilled or operated by it. If any Lessee drills any wells into or through the Unitized Formation, the Unitized Formation shall be protected in a manner satisfactory to the Operating Committee so that the production of Unitized Substances will not adversely be affected.

19.2.1. Multiple Completions. While each Lessee shall deliver possession of all its wells completed in the Unitized Formations as provided in Article 16, there is expressly reserved unto such Lessee the right to use such wells for the purpose of exploring, developing and operating, by means of multiple completions, such other sources of supply that may overlie or underlie the Unitized Formation; provided that, such Lessee shall, at its sole cost, risk and expense, explore, develop and operate such other sources of supply and furnish, install, and maintain equipment

necessary to segregate the production from such other sources of supply from the Unitized Substances, both in the well and on the surface, in a manner prescribed by the Operating Committee and provided that any such operations will not unduly interfere or adversely affect Unit Operations as determined by the Operating Committee. If it becomes necessary to work over, recondition or re-drill a well by reason of operations for production from such other common sources of supply, or the abandonment thereof, the workover, reconditioning, or re-drilling shall be done by and at the sole cost, risk and expense of such Lessee and in the manner prescribed by the Unit Operator.

19.2.2. If it becomes necessary to work over, recondition or re-drill a well by reason of the development, operation, or abandonment of the Unitized Formation in a multiple completion well, the workover, reconditioning or re-drilling shall be done by Unit Operator, and any extra expense incurred in the workover, reconditioning or re-drilling resulting from or occasioned by the well being a multiple completion well shall be borne by the Lessee producing from the other source of supply in the well. The term "extra expense" means the difference between the actual charges incurred in working over, reconditioning or re-drilling a multiple completion well and the normal charges for doing the same work on a well which is not a multiple completion well. The Unit Operator shall furnish the Lessee with an estimate of such charges prior to the commencement of the work.

19.2.3. Before any Lessee shall commence the working over, reconditioning or re-drilling of any well included in the Unit, the permission of the Operating Committee shall be secured, which permission shall not be unreasonably withheld. In an emergency, or if the Lessee fails to comply with the requirements of the Operating Committee, the Unit Operator shall have the authority to perform all work necessary to protect the Unitized Formation.

19.2.4. If there is a conflict of interest between the Unit and any Lessee with respect to a multiple completion well, or the operation thereof, the interest of the Unit shall prevail. Except for gross negligence or willful misconduct, neither the Unit nor the Unit Operator shall be liable or responsible for any damage to or loss of production from any other sources of supply, nor for damage to the property, equipment or facilities of a Lessee used in the development and operations of a multiple completion well.

## ARTICLE 20

### ABANDONMENT OF WELLS

20.1. Rights of Former Owners. If the Operating Committee decides to abandon permanently any well completed in the Unitized Formation prior to termination of the Unit, Unit Operator shall give written notice thereof to the original operator of the well or its successor(s) or assign(s), and they shall have the option for a period of ninety (90) days after the sending of such

notice to notify Unit Operator in writing of their election to take over and own the well. Within ten (10) days after the original operator of the well or its successor(s) or assign(s) have notified Unit Operator of their election to take over the well, they shall pay Unit Operator, for credit to the Joint Account, the amount estimated by the Operating Committee to be the net salvage value of the casing and Unit Equipment in and on the well. The original operator of the well or its successor(s) or assign(s), by taking over the well, agree to promptly and effectively, seal off and protect the Unitized Formation in a manner satisfactory to the Operating Committee, and upon abandonment to plug the well in compliance with applicable laws and regulations. If the original operator of the well or its successor(s) or assign(s) cannot be located, then notice shall be provided to the current Lessees of the Tract on which the surface hole is located.

20.2. Plugging. If the Lessees of a Tract do not elect to take over a well located thereon which is proposed for abandonment, Unit Operator shall plug and abandon the well in accordance with applicable laws and regulations. The cost of plugging and abandonment shall be a Unit Expense.

## ARTICLE 21

### CLAIMS AND SUITS

21.1. Settlements. Unit Operator may settle any single damage claim or suit involving Unit Operations but not involving an expenditure in excess of Two Hundred and Fifty Thousand Dollars (\$250,000.00), provided the payment is in complete settlement of such claim or suit. If the amount required for settlement exceeds the above specified amount, the Operating Committee shall assume and take over the further handling of the claim or suit unless such authority is expressly delegated to Unit Operator. All costs and expense of handling, settling, or otherwise discharging such claim or suit shall be an item of Unit Expense. If a claim is made against any Lessee, or if a Lessee is sued on account of any matter arising from Unit Operations and over which such Lessee individually has no control because of the rights given the Unit and Unit Operator by this Plan of Unitization, the Lessee shall immediately notify the Unit Operator, and the claim or suit shall be treated as any other claim or suit involving Unit Operations.

## ARTICLE 22

### FORCE MAJEURE

22.1. Force Majeure. Any obligation imposed by this Plan of Unitization on each Person, except for the payment of money, shall be suspended while compliance therewith is prevented, in whole or in part, by a strike, fire, war, civil disturbance, act of domestic or international terrorism, sabotage or vandalism, cyber attack or ransomware event, act of God, epidemic, or pandemic; by federal, state, or municipal laws; by any rule, regulation, or order of a governmental agency; by inability to secure materials; or by any other cause beyond the reasonable control of such Person.

No Person shall be required against its will to adjust or settle any labor dispute. Neither this Plan of Unitization nor any lease or other instrument subject hereto shall be terminated by reason of the suspension of Unit Operations due to any of the causes set forth in this Article.

## ARTICLE 23

### INTERNAL REVENUE PROVISION

23.1. Internal Revenue Provision. Each Lessee hereby elects that it and the operations covered by this Plan of Unitization be excluded from the application of all of the provisions of Subchapter K, Chapter 1, Subtitle A, of the Internal Revenue Code of 1954, as amended, as permitted and authorized by Section 761 of said Code and the regulations promulgated thereunder. Unit Operator is hereby authorized and directed to execute on behalf of each Lessee such evidence of this election as may be required by said regulations, to include, but not by way of limitation, all of the returns, statements and the data required by Federal Regulations 1.761-2. Should there be any requirement that each Person further evidence this election, each Lessee agrees to execute such documents and furnish such other evidence as may be required by the Federal Internal Revenue Service or as may be necessary to evidence this election. Each Lessee further agrees not to give any notices to take any other action inconsistent with the election made hereby. If any present or future income tax laws of the state or states in which the Unit Area is located, or any future income tax law of the United States, contain provisions similar to those in Subchapter K, Chapter 1, Subtitle A, of the Internal Revenue Code of 1954; as amended, under which an election similar to that provided by Section 761 of said Code is permitted, each Lessee agrees to make such election as may be permitted or required by such laws. In making this election, each Lessee states that the income derived by it from the operations under this Plan of Unitization can be adequately determined without the computation of partnership taxable income.

## ARTICLE 24

### NOTICES

24.1. Notices. All notices required hereunder shall be in writing and shall be deemed to have been properly served when sent by mail to the address of the representative of each Lessee on the Operating Committee as furnished to Unit Operator in accordance with Article 11.

24.2. Notice of Transfer of Title. No change of title shall be binding on the Unit or Unit Operator until the first day of the calendar month next succeeding the date of receipt by Unit Operator of evidence satisfactory to it of change of such ownership.

## ARTICLE 25

### ORGANIZATION AND EFFECTIVE DATE

25.1. Organizational Meeting. Subject to call by the Lessee designated herein as the Unit Operator, the representatives designated by the Lessees shall meet to perfect the organization of the Operating Committee.

25.2. Effective Date. The Operating Committee shall determine, and give Lessees reasonable notice of, the time when the Unit will take over and commence Unit Operations.

25.3. Orders Approving Unit - When Final. The order of the Commission approving the Unit means the order or orders approving this Plan of Unitization and finding that it has been signed, ratified, or approved by Lessees and Royalty Owners owning the percentage interest in the Unit Area required to make it effective. If the approval of this Plan of Unitization and the finding of approval by the Lessees and Royalty Owners are by separate orders, the date of the later of the two orders shall be regarded as the date of entry of the order approving the Unit. The order approving the Unit will be regarded as having become final when the time for appeal from the action of the Commission in regard thereto has expired, if no appeal is taken; or, if an appeal or appeals are taken, then upon final determination thereof.

25.4. Non-approval of Plan of Unitization by Commission. If an order of the Commission approving the Unit has not been entered prior to June 1, 2024, then this Plan of Unitization shall terminate on that date, hereinafter called Termination Date, and thereafter be of no further effect, unless prior thereto this Plan of Unitization has been signed, ratified, or approved by Lessees owning a Unit Participation of at least sixty-three percent (63%), and such Lessees owning a Unit Participation of at least sixty-three percent (63%) elect to extend said termination date for a period not to exceed six (6) months. If the termination date is so extended and an order of the Commission approving the Unit is not entered on or before the extended termination date, this Plan of Unitization shall terminate on the extended Termination Date and thereafter be of no further force and effect.

25.5. Failure to Take Over Operations. If the Unit fails to take over and commence Unit Operations on or before six (6) months after the time when the order of the Commission approving the Unit shall become final, the Unit shall be dissolved and all rights and obligations under this Plan of Unitization shall be at an end, except that any and all cost and expense incurred incident to its organization or preparatory to the commencement of Unit Operations, shall be borne and paid for by the Lessees whose representatives authorized the incurring of such expenses, in proportion that the Unit Participation of each such Lessee bears to the total Unit Participation of all such Lessees.

25.6. Certificate of Effectiveness. The Unit Operator within thirty (30) days after the Effective Date hereof shall submit to the County Clerk of Grady County, Oklahoma, and to the Secretary of the Commission, for filing, a certificate of effectiveness setting forth:

- a. the hour, day, and year on which the Unit took over and commenced Unit Operations;
- b. a description or plat of the lands included within the Unit Area; and
- c. the cause number, order number and date of the Commission order approving this Plan of Unitization.

## ARTICLE 26

### TERM AND ABANDONMENT OF OPERATIONS

26.1. Term. The Unit and this Plan of Unitization shall continue in effect until the Operating Committee by vote, in accordance with Section 11.6. hereof, determines that Unitized Substances can no longer be produced in paying quantities or that Unit Operations are no longer feasible.

26.2. Abandonment of Operations. Upon abandonment of operations:

- 26.2.1. Oil and Gas Rights. Oil and Gas Rights in and to each of the several Tracts shall no longer be affected by this Plan of Unitization, and thereafter the owners thereof shall be governed by the terms and provisions of the leases, contracts, and other instruments affecting the separate Tracts. Upon termination of this agreement in the manner set out herein the Royalty Owners agree to a ninety (90) day extension of their leases and contracts covering the lands which are committed to the Unit Area to permit the Lessees holding such lands to resume operation thereof, and if so resumed such lease or contract shall remain in force and effect in accordance with the provisions thereof.
- 26.2.2. Right to Operate. Lessees of any Tract that desire to take over and continue to operate wells located thereon may do so by paying Unit Operator, for credit to the Joint Account, the net salvage value of the casing and Unit Equipment in and on the wells taken over, as estimated by the Operating Committee, and by agreeing upon abandonment to properly plug and abandon the wells in compliance with applicable laws and regulations.

26.2.3. Salvaging Wells and Unit Equipment. Unit Operator shall salvage the Unit Equipment and as much of the casing and equipment in or on wells not taken over by Lessees of the separate Tracts as can economically and reasonably be salvaged, and shall properly plug and abandon the wells in accordance with applicable laws and regulations. Unit Operator shall have one (1) year after termination of operations to produce Unitized Substances within which to conduct the salvaging and plugging operations.

26.2.4. Cost of Salvage - Distribution of Assets. Lessees shall share in the cost of salvaging Unit Equipment, and in the liquidation and distribution of the Unit Equipment, assets and properties used in Unit Operations in proportion to their respective Unit Participation.

26.3. Certificate of Termination. When Unit Operations are abandoned and the affairs of the Unit terminated, Unit Operator shall submit to the County Clerk of Grady County, Oklahoma, and to the Secretary of the Commission, for filing, a certificate of termination setting forth the fact and time of termination of the Unit.

26.4. Obligations Payable After Termination. If any liability or obligation incurred prior to termination of the Unit shall accrue and become payable thereafter, the amount shall be borne and paid as Unit Expense in the same manner as if it had accrued prior to termination of the Unit.

## ARTICLE 27

### AMENDMENT TO PLAN OF UNITIZATION AND ENLARGEMENT OF UNIT

27.1. Amendment and Enlargement. Any Amendment to this Plan of Unitization or any enlargement of the Unit Area shall be in accordance with the provisions of Section 287.10, Title 52, Oklahoma Statutes, or any amendment thereto.

27.2. Value and Participation Interest for Producing Properties Added to Unit. Any producing well on a tract which is subsequently included in the Unit Area as the result of enlargement of the Unit Area shall be given value and such Tract's participation in the Unit shall be determined as follows:

- a. No such producing well shall be included in the Unit Area until production of thirty percent (30%) of the estimated primary oil recoverable from the existing wells on such Tract.

- b. The estimated primary reserves shall be determined by projecting the constant decline rate as indicated and approved by the Operating Committee based on a minimum of six (6) months production.
- c. The Unit Participation for the subject producing Tract added to the Unit shall be assigned in the same method originally used and set forth on Exhibit C and all Unit Participation for all other Tracts will be adjusted accordingly.

## ARTICLE 28

### WITHDRAWAL OF LESSEE

28.1. Withdrawal. A Lessee may withdraw from this agreement by transferring, without warranty of title either express or implied, to the Lessees who do not desire to withdraw, all its Oil and Gas Rights, exclusive of Royalty Interests, together with its interest in all Unit Equipment and in all wells used in Unit Operations, provided that such transfer shall not relieve such Lessee from any obligation or liability incurred prior to the first day of the month following receipt by Unit Operator of such transfer. The delivery of the transfer shall be made to Unit Operator for the transferees. The transferred interest shall be owned by the transferees, in proportion to their respective Unit Participation. The transferees, in proportion to the respective interests so acquired, shall pay the transferor for its interest in Unit Equipment, the salvage value thereof less its share of the estimated cost of salvaging same and of plugging and abandoning all wells then being used or held for Unit Operations, as determined by the Operating Committee. In the event such withdrawing Lessee's interest in the aforesaid salvage value is less than such Lessee's share of such estimated costs, the withdrawing Lessee, as a condition precedent to withdrawal, shall pay the Unit Operator, for the benefit of Lessees succeeding to its interest, a sum equal to the deficiency. Within ninety (90) days after receiving delivery of the transfer, Unit Operator shall render a final statement to the withdrawing Lessee for its share of Unit Expense, including any deficiency in salvage value, as determined by the Operating Committee, incurred as of the first day of the month following the date of receipt of the transfer. Provided all Unit Expense, including any deficiency hereunder, due from the withdrawing Lessee has been paid in full within thirty (30) days after the rendering of such final statement by the Unit Operator, the transfer shall be effective the first day of the month following its receipt by Unit Operator and, as of such effective date, withdrawing Lessee shall be relieved from all further obligations and liabilities hereunder and under the Unit agreement, and the rights of the withdrawing Lessee hereunder and under the Unit agreement shall cease insofar as they existed by virtue of the interest transferred.

28.2. Limitation on Withdrawal. Notwithstanding anything set forth in Section 28.1., Lessees will only be allowed to withdraw by an affirmative vote of the Operating Committee pursuant to Section 11.6. However, if the Operating Committee votes not to allow a Lessee to withdraw but some Lessees still wish to agree to accept a Lessee's withdrawal, then those Lessees accepting the Lessee's withdrawal shall be assigned the interest owned by the withdrawing Lessee divided proportionately among them.

## ARTICLE 29

### SIGNING, RATIFICATION OR APPROVAL

29.1. Original Counterparts or Ratifications. This Plan of Unitization may be signed, ratified, or approved by signing the original of this instrument, a counterpart, or other instrument adopting the provisions hereof, all with the same effect as if all Persons had signed the same instrument. The exchange of signature pages by email, facsimile or other electronic transmission shall constitute effective execution and delivery of this agreement, and such counterparts may be used in lieu of the original for all purposes. Persons signing, ratifying, or otherwise approving this Plan of Unitization, thereby agree to all the provisions thereof.

29.2. Joinder in Dual Capacity. Where a party is both a Lessee and a Royalty Owner in the Unitization Formations, the signing, ratification or approval of this Plan of Unitization by such party as herein provided shall be deemed to be in the party's capacity as both a Lessee and Royalty Owner in the Unitized Formations.

29.3. Heirs, Successors and Assigns. The signing, ratification, or approval of this Plan of Unitization shall be binding upon the heirs, personal representatives, successors, and assigns of the Persons so signing, ratifying, or approving the same.

## ARTICLE 30

### TRANSFER OF INTEREST

30.1. Transfer of Interest. In the event a Lessee assigns all or any portion of its interest in its land described in Exhibit A to four or more persons, such Lessee and its assigns, or all of such assigns, shall designate an agent for all purposes hereunder. If Lessee retains an interest, then, in the event of failure of Lessee and its assigns to designate such agent, Lessee shall be such agent for itself and assigns.

### 1. Definitions

1. Designated Components shall mean each of the individual components listed as follows:
  - Carbon Dioxide (CO<sub>2</sub>)
  - Nitrogen (N<sub>2</sub>)
  - Methane (C<sub>1</sub>)
  - Ethane (C<sub>2</sub>)
  - Propane (C<sub>3</sub>)
  - Isobutane (iC<sub>4</sub>)
  - Normal Butane (nC<sub>4</sub>)
  - Isopentane (iC<sub>5</sub>)
  - Normal Pentane (nC<sub>5</sub>)
  - Hexanes Plus (C<sub>6+</sub>)
  - Water (H<sub>2</sub>O)
  - Oxygen (O<sub>2</sub>)
2. Delivered Component shall mean the volume of each Designated Component delivered from the Unit.
3. Outside Substance Inventory shall mean the volume of Outside Substance that has been injected but has yet to be recovered.
4. Delivered Outside Substance shall be the volume of Outside Substance that has been recovered post-injection.

5. Delivered Unitized Substance shall be the volume of Unitized Substances delivered from the Unit.

5.3 Separating Gas Recovered as an Outside Substance from Gas Produced as a Unitized Substance. When the Unit Operator injects natural gas as an Outside Substance, the Unit Operator shall use the following component balancing methodology to separately account for natural gas recovered as an Outside Substance from gas produced as a Unitized Substance:

- a. All accounting for and volume allocation of Outside Substance and Unitized Substance shall be completed for each individual Designated Component in thousand standard cubic feet (Mcf).
- b. Within the Unit Operator's judgment as a reasonable prudent operator, the Unit Operator may choose to measure the Designated Components either through documented spot samples or through live readings from a gas chromatograph.
- c. For each month, the purchased Outside Substances shall be measured and sampled for component analyses to determine the volume of the Designated Components.
- d. The Unit Operator shall maintain an Outside Substance Inventory account for each Designated Component in Mcf – specifically an Outside Substance CO<sub>2</sub> Inventory account, Outside Substance N<sub>2</sub> Inventory account, Outside Substance C<sub>1</sub> Inventory account, Outside Substance C<sub>2</sub> Inventory account, etc.
- e. All purchases of Outside Substance for injection will be a debit (increase) in Mcf by each Designated Component to the Outside Substance Inventory account.
- f. All natural gas delivered from the Unit shall be metered and sampled for component analyses to determine the volume in Mcf of each Designated Component such that the total Mcf delivered amount is identified as Delivered Component CO<sub>2</sub>, Delivered Component N<sub>2</sub>, Delivered Component C<sub>1</sub>, Delivered Component C<sub>2</sub>, etc.
- g. For each Designated Component of gas delivered, a credit (decrease) in Mcf to each respective Designated Component in the Outside Substance Inventory account shall be made equal to the lesser of the Delivered Component volume or the Outside Substance Inventory account balance as to each Designated Component. That amount credited will be identified by component as "Delivered Outside Substance" and segregated as

Delivered Outside Substance CO<sub>2</sub>, Delivered Outside Substance N<sub>2</sub>, Delivered Outside Substance C<sub>1</sub>, Delivered Outside Substance C<sub>2</sub>, etc.

- h. For each Designated Component, the Delivered Unitized Substance volume shall be equal to the Delivered Component volume less the Delivered Outside Substance volume.
- i. The quantity of the gas delivered from the Unit attributed to the Unitized Substances shall be equal to the sum of the Delivered Unitized Substance by Designated Component: Delivered Unitized Substance CO<sub>2</sub>, Delivered Unitized Substance N<sub>2</sub>, Delivered Unitized Substance C<sub>1</sub>, Delivered Unitized Substance C<sub>2</sub>, etc.
- j. For the avoidance of doubt, an example calculation is provided in Exhibit "A".
- k. Upon written request made no more often than two times in a 12-month period, Lessees and Royalty Owners shall have the right to inspect the Outside Substance Inventory balance by Designated Component maintained by Unit Operator for the purpose of determining the accuracy thereof. Upon receipt of any such request, Unit Operator may choose in its discretion to either send the requestor a copy of the current Outside Substance Component Inventory balance by Designated Component or, make it available for inspection and examination during reasonable business hours at Unit Operator's principal of business.

**3. ADVANCES AND PAYMENTS BY THE PARTIES**

- A. Unless otherwise provided for in the Agreement, the Operator may require the Non-Operators to advance their share of the estimated ~~cash outlay~~ **thirty (30)** for the succeeding month's operations within ~~fifteen (15)~~ / days after receipt of the advance request or by the first day of the month for which the advance is required, whichever is later. The Operator shall adjust each monthly billing to reflect advances received from the Non-Operators for such month. If a refund is due, the Operator shall apply the amount to be refunded to the subsequent month's billing or advance, unless the Non-Operator sends the Operator a written request for a cash refund. The Operator shall remit the refund to the Non-Operator within ~~fifteen (15)~~ **thirty (30)** / days of receipt of such written request.
- B. Except as provided below, each Party shall pay its proportionate share of all bills in full within ~~fifteen (15)~~ **thirty (30)** / days of receipt date. If payment is not made within such time, the unpaid balance shall bear interest compounded monthly at the prime rate published by the *Wall Street Journal* on the first day of each month the payment is delinquent, plus ~~three~~ **one (1%)** / percent (~~3%~~), / per annum, or the maximum contract rate permitted by the applicable usury Laws governing the Joint Property, whichever is the lesser, plus attorney's fees, court costs, and other costs in connection with the collection of unpaid amounts. If the *Wall Street Journal* ceases to be published or discontinues publishing a prime rate, the unpaid balance shall bear interest compounded monthly at the prime rate published by the Federal Reserve plus ~~three~~ **one (1%)** / percent (~~3%~~), / per annum. Interest shall begin accruing on the first day of the month in which the payment was due. Payment shall not be reduced or delayed as a result of inquiries or anticipated credits unless the Operator has agreed. Notwithstanding the foregoing, the Non-Operator may reduce payment, provided it furnishes documentation and explanation to the Operator at the time payment is made, to the extent such reduction is caused by:
- (1) being billed at an incorrect working interest or Participating Interest that is higher than such Non-Operator's actual working interest or Participating Interest, as applicable; or
  - (2) being billed for a project or AFE requiring approval of the Parties under the Agreement that the Non-Operator has not approved or is not otherwise obligated to pay under the Agreement; or
  - (3) being billed for a property in which the Non-Operator no longer owns a working interest, provided the Non-Operator has furnished the Operator a copy of the recorded assignment or letter in-lieu. Notwithstanding the foregoing, the Non-Operator shall remain responsible for paying bills attributable to the interest it sold or transferred for any bills rendered during the thirty (30) day period following the Operator's receipt of such written notice; or
  - (4) charges outside the adjustment period, as provided in Section I.4 (*Adjustments*).

**4. ADJUSTMENTS**

- A. Payment of any such bills shall not prejudice the right of any Party to protest or question the correctness thereof; however, all bills

56  
57

1 and statements, including payout statements, rendered during any calendar year shall conclusively be presumed to be true and correct,  
2 with respect only to expenditures, after twenty-four (24) months following the end of any such calendar year, unless within said  
3 period a Party takes specific detailed written exception thereto making a claim for adjustment. The Operator shall provide a response  
4 to all written exceptions, whether or not contained in an audit report, within the time periods prescribed in Section I.5 (*Expenditure*  
5 *Audits*).

6  
7  
8  
9  
10 B. All adjustments initiated by the Operator, except those described in items (1) through (4) of this Section I.4.B, are limited to the  
11 twenty-four (24) month period following the end of the calendar year in which the original charge appeared or should have appeared  
12 on the Operator's Joint Account statement or payout statement. Adjustments that may be made beyond the twenty-four (24) month  
13 period are limited to adjustments resulting from the following:

- 14  
15  
16  
17 (1) a physical inventory of Controllable Material as provided for in Section V (*Inventories of Controllable Material*), or  
18 (2) an offsetting entry (whether in whole or in part) that is the direct result of a specific joint interest audit exception granted by the  
19 Operator relating to another property, or  
20 (3) a government/regulatory audit, or  
21 (4) a working interest ownership or Participating Interest adjustment.

22  
23  
24  
25  
26  
27 **5. EXPENDITURE AUDITS**

28  
29  
30 A. A Non-Operator, upon written notice to the Operator and all other Non-Operators, shall have the right to audit the Operator's  
31 accounts and records relating to the Joint Account within the twenty-four (24) month period following the end of such calendar year in  
32 which such bill was rendered; however, conducting an audit shall not extend the time for the taking of written exception to and the  
33 adjustment of accounts as provided for in Section I.4 (*Adjustments*). Any Party that is subject to payout accounting under the  
34 Agreement shall have the right to audit the accounts and records of the Party responsible for preparing the payout statements, or of  
35 the Party furnishing information to the Party responsible for preparing payout statements. Audits of payout accounts may include the  
36 volumes of hydrocarbons produced and saved and proceeds received for such hydrocarbons as they pertain to payout accounting  
37 required under the Agreement. Unless otherwise provided in the Agreement, audits of a payout account shall be conducted within the  
38 twenty-four (24) month period following the end of the calendar year in which the payout statement was rendered.

39  
40  
41  
42  
43  
44  
45 Where there are two or more Non-Operators, the Non-Operators shall make every reasonable effort to conduct a joint audit in a  
46 manner that will result in a minimum of inconvenience to the Operator. The Operator shall bear no portion of the Non-Operators'  
47 audit cost incurred under this paragraph unless agreed to by the Operator. The audits shall not be conducted more than once each year  
48 without prior approval of the Operator, except upon the resignation or removal of the Operator, and shall be made at the expense of

4 The Non-Operator leading the audit (hereinafter "lead audit company") shall issue the audit report within ninety (90) days after  
5 completion of the audit testing and analysis; however, the ninety (90) day time period shall not extend the twenty-four (24) month  
6 requirement for taking specific detailed written exception as required in Section I.4.A (*Adjustments*) above. All claims shall be  
7 supported with sufficient documentation.

10  
11 A timely filed written exception or audit report containing written exceptions (hereinafter "written exceptions") shall, with respect to  
12 the claims made therein, preclude the Operator from asserting a statute of limitations defense against such claims, and the Operator  
13 hereby waives its right to assert any statute of limitations defense against such claims for so long as any Non-Operator continues to  
14 comply with the deadlines for resolving exceptions provided in this Accounting Procedure. If the Non-Operators fail to comply with  
15 the additional deadlines in Section I.5.B or I.5.C, the Operator's waiver of its rights to assert a statute of limitations defense against  
16 the claims brought by the Non-Operators shall lapse, and such claims shall then be subject to the applicable statute of limitations,

24  
25 B. The Operator shall provide a written response to all exceptions in an audit report within one hundred eighty (180) days after Operator  
26 receives such report. Denied exceptions should be accompanied by a substantive response. ~~If the Operator fails to provide substantive~~  
27 ~~response to an exception within this one hundred eighty (180) day period, the Operator will owe interest on that exception or portion~~  
28 ~~thereof, if ultimately granted, from the date it received the audit report. Interest shall be calculated using the rate set forth in Section~~

34 C. The lead audit company shall reply to the Operator's response to an audit report within ninety (90) days of receipt, and the Operator  
35 shall reply to the lead audit company's follow-up response within ninety (90) days of receipt; provided, however, each Non-Operator  
36 shall have the right to represent itself if it disagrees with the lead audit company's position or believes the lead audit company is not  
37 adequately fulfilling its duties. ~~Unless otherwise provided for in Section I.5.E, if the Operator fails to provide substantive response~~  
38 ~~to an exception within this ninety (90) day period, the Operator will owe interest on that exception or portion thereof, if ultimately~~  
39 ~~granted, from the date it received the audit report. Interest shall be calculated using the rate set forth in Section I.3.B (*Advances and*~~  
40 ~~*Payments by the Parties*).~~

43  
44

45  
46  
47 D. If any Party fails to meet the deadlines in Sections I.5.B or I.5.C or if any audit issues are outstanding fifteen (15) months after  
48 Operator receives the audit report, the Operator or any Non-Operator participating in the audit has the right to call a resolution  
49 meeting, as set forth in this Section I.5.D or it may invoke the dispute resolution procedures included in the Agreement, if applicable.  
50  
51

1 The meeting will require one month's written notice to the Operator and all Non-Operators participating in the audit. The meeting  
2 shall be held at the Operator's office or mutually agreed location, and shall be attended by representatives of the Parties with  
3 authority to resolve such outstanding issues. Any Party who fails to attend the resolution meeting shall be bound by any resolution  
4 reached at the meeting. The lead audit company will make good faith efforts to coordinate the response and positions of the  
5 Non-Operator participants throughout the resolution process; however, each Non-Operator shall have the right to represent itself.  
6 Attendees will make good faith efforts to resolve outstanding issues, and each Party will be required to present substantive information  
7 supporting its position. A resolution meeting may be held as often as agreed to by the Parties. Issues unresolved at one meeting may  
8 be discussed at subsequent meetings until each such issue is resolved.  
9  
10  
11  
12

13  
14 If the Agreement contains no dispute resolution procedures and the audit issues cannot be resolved by negotiation, the dispute shall  
15 be submitted to mediation. In such event, promptly following one Party's written request for mediation, the Parties to the dispute  
16 shall choose a mutually acceptable mediator and share the costs of mediation services equally. The Parties shall each have present  
17 at the mediation at least one individual who has the authority to settle the dispute. The Parties shall make reasonable efforts to  
18 ensure that the mediation commences within sixty (60) days of the date of the mediation request. Notwithstanding the above, any  
19 Party may file a lawsuit or complaint (1) if the Parties are unable after reasonable efforts, to commence mediation within sixty (60)  
20 days of the date of the mediation request, (2) for statute of limitations reasons, or (3) to seek a preliminary injunction or other  
21 provisional judicial relief, if in its sole judgment an injunction or other provisional relief is necessary to avoid irreparable damage or

29  
30 (1) The Operator shall charge the Joint Account at the following rates per well per month:  
31

32  
33 Drilling Well Rate per month \$ 25,400 (prorated for less than a full month)  
34

35  
36 Producing Well Rate per month \$ 2,540  
37

38  
39 (2) Application of Overhead—Drilling Well Rate shall be as follows:  
40

41  
42 (a) Charges for onshore drilling wells shall begin on the spud date and terminate on the date the drilling and/or completion  
43 equipment used on the well is released, whichever occurs later. Charges for offshore and inland waters drilling wells shall  
44 begin on the date the drilling or completion equipment arrives on location and terminate on the date the drilling or completion  
45 equipment moves off location, or is released, whichever occurs first. No charge shall be made during suspension of drilling  
46 and/or completion operations for fifteen (15) or more consecutive calendar days.

(b) Charges for any well undergoing any type of workover, recompletion, and/or abandonment for a period of five (5) or more consecutive work-days shall be made at the Drilling Well Rate. Such charges shall be applied for the period from date operations, with rig or other units used in operations, commence through date of rig or other unit release, except that no charges shall be made during suspension of operations for fifteen (15) or more consecutive calendar days.

(3) Application of Overhead—Producing Well Rate shall be as follows:

(a) An active well that is produced, injected into for recovery or disposal, or used to obtain water supply to support operations for any portion of the month shall be considered as a one-well charge for the entire month.

(b) Each active completion in a multi-completed well shall be considered as a one-well charge provided each completion is considered a separate well by the governing regulatory authority.

(c) A one-well charge shall be made for the month in which plugging and abandonment operations are completed on any well, unless the Drilling Well Rate applies, as provided in Sections III.1.B.(2)(a) or (b). This one-well charge shall be made whether or not the well has produced.

(d) An active gas well shut in because of overproduction or failure of a purchaser, processor, or transporter to take production shall be considered as a one-well charge provided the gas well is directly connected to a permanent sales outlet.

(e) Any well not meeting the criteria set forth in Sections III.1.B.(3) (a), (b), (c), or (d) shall not qualify for a producing overhead charge.

(4) The well rates shall be adjusted on the first day of April each year following the effective date of the Agreement; provided, however, if this Accounting Procedure is attached to or otherwise governing the payout accounting under a farmout agreement, the rates shall be adjusted on the first day of April each year following the effective date of such farmout agreement.

The adjustment shall be computed by applying an adjustment factor to arrive at the Operator's actual cost based on actual cost experience for the prior fiscal year as calculated using guidance within COPAS AG-23 ("Overhead Negotiation and Calculation"). For clarity, the intent of this provision is to adjust the overhead rates to the Operator's actual overhead rate in lieu of a published index which may or may not reflect the Operator's actual costs.

~~(1) Operator shall charge the Joint Account at the following rates:~~

~~(a) Development Rate \_\_\_\_\_ percent (\_\_\_\_\_) % of the cost of development of the Joint Property, exclusive of costs provided under Section II.9 (*Legal Expense*) and all Material salvage credits.~~

~~(b) Operating Rate \_\_\_\_\_ percent (\_\_\_\_\_) % of the cost of operating the Joint Property, exclusive of costs provided under Sections II.1 (*Rentals and Royalties*) and II.9 (*Legal Expense*); all Material salvage credits; the value of substances purchased for enhanced recovery; all property and ad valorem taxes, and any other taxes and assessments that are levied, assessed, and paid upon the mineral interest in and to the Joint Property.~~

~~(2) Application of Overhead—Percentage Basis shall be as follows:~~

~~(a) The Development Rate shall be applied to all costs in connection with:~~

- ~~[i] drilling, redrilling, sidetracking, or deepening of a well~~
- ~~[ii] a well undergoing plugback or workover operations for a period of five (5) or more consecutive work days~~
- ~~[iii] preliminary expenditures necessary in preparation for drilling~~
- ~~[iv] expenditures incurred in abandoning when the well is not completed as a producer~~
- ~~[v] construction or installation of fixed assets, the expansion of fixed assets and any other project clearly discernible as a fixed asset, other than Major Construction or Catastrophe as defined in Section III.2 (*Overhead-Major Construction and Catastrophe*).~~

~~(b) The Operating Rate shall be applied to all other costs in connection with Joint Operations, except those subject to Section III.2 (*Overhead-Major Construction and Catastrophe*).~~

**2. OVERHEAD—MAJOR CONSTRUCTION AND CATASTROPHE**

To compensate the Operator for overhead costs incurred in connection with a Major Construction project or Catastrophe, the Operator shall either negotiate a rate prior to the beginning of the project, or shall charge the Joint Account for overhead based on the following rates for any Major Construction project in excess of the Operator's expenditure limit under the Agreement, or for any Catastrophe regardless of the amount. If the Agreement to which this Accounting Procedure is attached does not contain an expenditure limit, Major Construction Overhead shall be assessed for any single Major Construction project costing in excess of \$50,000 gross.

1 Major Construction shall mean the construction and installation of fixed assets, the expansion of fixed assets, and any other project clearly  
2 discernible as a fixed asset required for the development and operation of the Joint Property, or in the dismantlement, abandonment,  
3 removal, and restoration of platforms, production equipment, and other operating facilities.  
4

5  
6  
7 Catastrophe is defined as a sudden calamitous event bringing damage, loss, or destruction to property or the environment, such as an oil  
8 spill, blowout, explosion, fire, storm, hurricane, or other disaster. The overhead rate shall be applied to those costs necessary to restore the  
9 Joint Property to the equivalent condition that existed prior to the event.  
10

11  
12  
13 ~~A. If the Operator absorbs the engineering, design and drafting costs related to the project:~~

14  
15  
16 (1) ~~5~~ % of total costs if such costs are less than \$100,000; plus

17  
18  
19 (2) ~~3~~ % of total costs in excess of \$100,000 but less than \$1,000,000; plus

20  
21  
22 (3) ~~2~~ % of total costs in excess of \$1,000,000.  
23

24  
25 B. If the Operator charges engineering, design and drafting costs related to the project directly to the Joint Account:

26  
27  
28 (1) ~~4~~ % of total costs if such costs are less than \$100,000; plus

29  
30  
31 (2) ~~2.4~~ % of total costs in excess of \$100,000 but less than \$1,000,000; plus

32  
33  
34 (3) ~~1.6~~ % of total costs in excess of \$1,000,000.  
35

36  
37 Total cost shall mean the gross cost of any one project or facility installation. For the purpose of this paragraph, the component parts of a  
38 single Major Construction project or facility installation shall not be treated separately, and the cost of drilling and workover wells and  
39 purchasing and installing pumping units and downhole artificial lift equipment shall be excluded. For Catastrophes, the rates shall be applied  
40 to all costs associated with each single occurrence or event.  
41

42  
43  
44 ~~On each project, the Operator shall advise the Non-Operator(s) in advance which of the above options shall apply.~~

45  
46  
47 For the purposes of calculating Catastrophe Overhead, the cost of drilling relief wells, substitute wells, or conducting other well operations  
48 directly resulting from the catastrophic event shall be included. Expenditures to which these rates apply shall not be reduced by salvage or  
49 insurance recoveries. Expenditures that qualify for Major Construction or Catastrophe Overhead shall not qualify for overhead under any  
50

1 other overhead provisions.  
2

3  
4 In the event of any conflict between the provisions of this Section III.2 and the provisions of Sections II.2 (*Labor*), II.5 (*Services*), or II.7  
5  
6 (*Affiliates*), the provisions of this Section III.2 shall govern.  
7

8  
9 **3. AMENDMENT OF OVERHEAD RATES**  
10

11  
12 The overhead rates provided for in this Section III may be amended from time to time if, in practice, the rates are found to be insufficient  
13  
14 or excessive, in accordance with the provisions of Section I.6.B (*Amendments*).  
15

16  
17  
18 **IV. MATERIAL PURCHASES, TRANSFERS, AND DISPOSITIONS**  
19

20  
21 The Operator is responsible for Joint Account Material and shall make proper and timely charges and credits for direct purchases, transfers, and  
22  
23 dispositions. The Operator shall provide all Material for use in the conduct of Joint Operations; however, Material may be supplied by the Non-  
24  
25 Operators, at the Operator's option. Material furnished by any Party shall be furnished without any express or implied warranties as to quality,  
26  
27 fitness for use, or any other matter.  
28

29 **1. DIRECT PURCHASES**  
30

31  
32 Direct purchases shall be charged to the Joint Account at the price paid by the Operator after deduction of all discounts received. The  
33  
34 Operator shall make good faith efforts to take discounts offered by suppliers, but shall not be liable for failure to take discounts except to  
35  
36 the extent such failure was the result of the Operator's gross negligence or willful misconduct. A direct purchase shall be deemed to occur  
37  
38 when an agreement is made between an Operator and a third party for the acquisition of Material for a specific well site or location.  
39  
40 Material provided by the Operator under "vendor stocking programs," where the initial use is for a Joint Property and title of the Material  
41  
42 does not pass from the manufacturer, distributor, or agent until usage, is considered a direct purchase. If Material is found to be defective  
43  
44 or is returned to the manufacturer, distributor, or agent for any other reason, credit shall be passed to the Joint Account within sixty (60)  
45  
46 days after the Operator has received adjustment from the manufacturer, distributor, or agent.  
47  
48  
49  
50  
51  
52

1     **2. TRANSFERS**

2  
3  
4     A transfer is determined to occur when the Operator (i) furnishes Material from a storage facility or from another operated property, (ii) has  
5     assumed liability for the storage costs and changes in value, and (iii) has previously secured and held title to the transferred Material.  
6  
7     Similarly, the removal of Material from the Joint Property to a storage facility or to another operated property is also considered a transfer;  
8     provided, however, Material that is moved from the Joint Property to a storage location for safe-keeping pending disposition may remain  
9  
10    charged to the Joint Account and is not considered a transfer. Material shall be disposed of in accordance with Section IV.3 (*Disposition of*  
11    *Surplus*) and the Agreement to which this Accounting Procedure is attached.  
12

13  
14     **A. PRICING**

15  
16  
17     The value of Material transferred to/from the Joint Property should generally reflect the market value on the date of physical transfer.  
18  
19     Regardless of the pricing method used, the Operator shall make available to the Non-Operators sufficient documentation to verify the  
20     Material valuation. When higher than specification grade or size tubulars are used in the conduct of Joint Operations, the Operator  
21     shall charge the Joint Account at the equivalent price for well design specification tubulars, unless such higher specification grade or  
22     sized tubulars are approved by the Parties pursuant to Section I.6.A (*General Matters*). Transfers of new Material will be priced  
23     using one of the following pricing methods; provided, however, the Operator shall use consistent pricing methods, and not alternate  
24     between methods for the purpose of choosing the method most favorable to the Operator for a specific transfer:  
25  
26  
27

- 28  
29  
30     (1) Using published prices in effect on date of movement as adjusted by the appropriate COPAS Historical Price Multiplier (HPM)  
31     or prices provided by the COPAS Computerized Equipment Pricing System (CEPS).  
32  
33  
34         (a) For oil country tubulars and line pipe, the published price shall be based upon eastern mill carload base prices (Houston,  
35         Texas, for special end) adjusted as of date of movement, plus transportation cost as defined in Section IV.2.B (*Freight*).  
36  
37  
38         (b) For other Material, the published price shall be the published list price in effect at date of movement, as listed by a Supply  
39         Store nearest the Joint Property where like Material is normally available, or point of manufacture plus transportation  
40         costs as defined in Section IV.2.B (*Freight*).

46  
47  
48     (3) Based on the amount paid by the Operator for like Material in the vicinity of the Joint Property within the previous twelve (12)  
49     months from the date of physical transfer.

(4) As agreed to by the Participating Parties for Material being transferred to the Joint Property, and by the Parties owning the Material for Material being transferred from the Joint Property.

**B. FREIGHT**

Transportation costs shall be added to the Material transfer price using the method prescribed by the COPAS Computerized Equipment Pricing System (CEPS). If not using CEPS, transportation costs shall be calculated as follows:

- (1) Transportation costs for oil country tubulars and line pipe shall be calculated using the distance from eastern mill to the Railway Receiving Point based on the carload weight basis as recommended by the COPAS MFI-38 ("Material Pricing Manual") and other COPAS MFIs in effect at the time of the transfer.
- (2) Transportation costs for special mill items shall be calculated from that mill's shipping point to the Railway Receiving Point. For transportation costs from other than eastern mills, the 30,000-pound interstate truck rate shall be used. Transportation costs for macaroni tubing shall be calculated based on the interstate truck rate per weight of tubing transferred to the Railway Receiving Point.
- (3) Transportation costs for special end tubular goods shall be calculated using the interstate truck rate from Houston, Texas, to the Railway Receiving Point.
- (4) Transportation costs for Material other than that described in Sections IV.2.B.(1) through (3), shall be calculated from the Supply Store or point of manufacture, whichever is appropriate, to the Railway Receiving Point

Regardless of whether using CEPS or manually calculating transportation costs, transportation costs from the Railway Receiving Point to the Joint Property are in addition to the foregoing, and may be charged to the Joint Account based on actual costs incurred.

**C. TAXES**

Sales and use taxes shall be added to the Material transfer price using either the method contained in the COPAS Computerized Equipment Pricing System (CEPS) or the applicable tax rate in effect for the Joint Property at the time and place of transfer. In either case, the Joint Account shall be charged or credited at the rate that would have governed had the Material been a direct purchase.

1 D. CONDITION

and credited

2  
3  
4 (1) Condition "A" – New and unused Material in sound and serviceable condition shall be charged / at one hundred percent (100%)  
5 of the price as determined in Sections IV.2.A (*Pricing*), IV.2.B (*Freight*), and IV.2.C (*Taxes*). ~~Material transferred from the~~  
6 ~~Joint Property that was not placed in service shall be credited as charged without gain or loss; provided, however, any unused~~  
7 ~~Material that was charged to the Joint Account through a direct purchase will be credited to the Joint Account at the original~~  
8 ~~cost paid less restocking fees charged by the vendor. New and unused Material transferred from the Joint Property may be~~  
9 ~~credited at a price other than the price originally charged to the Joint Account provided such price is approved by the Parties~~  
10 ~~owning such Material, pursuant to Section I.6.A (*General Matters*). All refurbishing costs required or necessary to return the~~  
11 ~~Material to original condition or to correct handling, transportation, or other damages will be borne by the divesting property.~~  
12 ~~The Joint Account is responsible for Material preparation, handling, and transportation costs for new and unused Material~~  
13 ~~charged to the Joint Property either through a direct purchase or transfer. Any preparation costs incurred, including any internal~~  
14 ~~or external coating and wrapping, will be credited on new Material provided these services were not repeated for such Material~~  
15 ~~for the receiving property.~~

16  
17  
18  
19  
20  
21  
22  
23  
24 (2) Condition "B" – Used Material in sound and serviceable condition and suitable for reuse without reconditioning shall be priced  
25 by multiplying the price determined in Sections IV.2.A (*Pricing*), IV.2.B (*Freight*), and IV.2.C (*Taxes*) by seventy-five percent  
26 (75%).  
27

28  
29  
30 Except as provided in Section IV.2.D(3), all reconditioning costs required to return the Material to Condition "B" or to correct  
31 handling, transportation or other damages will be borne by the divesting property.  
32

33  
34  
35 If the Material was originally charged to the Joint Account as used Material and placed in service for the Joint Property, the

A. PREMIUM PRICING

Whenever Material is available only at inflated prices due to national emergencies, strikes, government imposed foreign trade restrictions, or other unusual causes over which the Operator has no control, for direct purchase the Operator may charge the Joint Account for the required Material at the Operator's actual cost incurred in providing such Material, making it suitable for use, and moving it to the Joint Property. Material transferred or disposed of during premium pricing situations shall be valued in accordance with Section IV.2 (*Transfers*) or Section IV.3 (*Disposition of Surplus*), as applicable.

B. SHOP-MADE ITEMS

Items fabricated by the Operator's employees, or by contract laborers under the direction of the Operator, shall be priced using the value of the Material used to construct the item plus the cost of labor to fabricate the item. If the Material is from the Operator's scrap or junk account, the Material shall be priced at either twenty-five percent (25%) of the current price as determined in Section IV.2.A (*Pricing*) or scrap value, whichever is higher. In no event shall the amount charged exceed the value of the item commensurate with its use.

C. MILL REJECTS

Mill rejects purchased as "limited service" casing or tubing shall be priced at eighty percent (80%) of K-55/J-55 price as determined in Section IV.2 (*Transfers*). Line pipe converted to casing or tubing with casing or tubing couplings attached shall be priced as K-55/J-55 casing or tubing at the nearest size and weight.

**V. INVENTORIES OF CONTROLLABLE MATERIAL**

The Operator shall maintain records of Controllable Material charged to the Joint Account, with sufficient detail to perform physical inventories.

Adjustments to the Joint Account by the Operator resulting from a physical inventory of Controllable Material shall be made within twelve (12) months following the taking of the inventory or receipt of Non-Operator inventory report. Charges and credits for overages or shortages will be valued for the Joint Account in accordance with Section IV.2 (*Transfers*) and shall be based on the Condition "B" prices in effect on the date of physical inventory unless the inventorying Parties can provide sufficient evidence another Material condition applies.

1 **1. DIRECTED INVENTORIES**

2  
3  
4 Physical inventories shall be performed by the Operator upon written request of a majority in working interests of the Non-Operators  
5 (hereinafter, "directed inventory"); provided, however, the Operator shall not be required to perform directed inventories more frequently  
6 than once every five (5) years. Directed inventories shall be commenced within one hundred eighty (180) days after the Operator receives  
7 written notice that a majority in interest of the Non-Operators has requested the inventory. All Parties shall be governed by the results of  
8 any directed inventory.  
9  
10

11  
12  
13 Expenses of directed inventories will be borne by the Joint Account; provided, however, costs associated with any post-report follow-up  
14 work in settling the inventory will be absorbed by the Party incurring such costs. The Operator is expected to exercise judgment in keeping  
15 expenses within reasonable limits. Any anticipated disproportionate or extraordinary costs should be discussed and agreed upon prior to  
16 commencement of the inventory. Expenses of directed inventories may include the following:  
17  
18

- 19  
20  
21 A. A per diem rate for each inventory person, representative of actual salaries, wages, and payroll burdens and benefits of the personnel  
22 performing the inventory or a rate agreed to by the Parties pursuant to Section I.6.A (*General Matters*). The per diem rate shall also  
23 be applied to a reasonable number of days for pre-inventory work and report preparation.  
24  
25  
26  
27 B. Actual transportation costs and Personal Expenses for the inventory team.  
28  
29  
30 C. Reasonable charges for report preparation and distribution to the Non-Operators.  
31

32  
33 **2. NON-DIRECTED INVENTORIES**

34  
35  
36 A. OPERATOR INVENTORIES

37  
38  
39 Physical inventories that are not requested by the Non-Operators may be performed by the Operator, at the Operator's discretion. The  
40 expenses of conducting such Operator-initiated inventories shall not be charged to the Joint Account.  
41  
42

43  
44 B. NON-OPERATOR INVENTORIES

45  
46  
47 Subject to the terms of the Agreement to which this Accounting Procedure is attached, the Non-Operators may conduct a physical
