

BEFORE THE CORPORATION COMMISSION OF THE STATE OF OKLAHOMA

APPLICANT: NEWFIELD EXPLORATION MID-CONTINENT INC.)
)
 RELIEF SOUGHT: MULTIUNIT HORIZONTAL WELL)
)
 LEGAL DESCRIPTION: SECTIONS 5 & 8, TOWNSHIP 17)
 NORTH, RANGE 8 WEST,)
 KINGFISHER COUNTY, OKLAHOMA)

CAUSE CD NO. 201501595-T

REPLACEMENT FOR FAX FILED ON

MAR 25 2015

MAR 27 2015

APPLICATION

COMES NOW Applicant and shows the Corporation Commission of Oklahoma as follows: COUNTY CLERK OF OKLAHOMA - TULSA

1. **PARTIES:** Applicant is **Newfield Exploration Mid-Continent Inc., One Williams Center, Suite 1900, Tulsa, OK 74172**, owner of oil and gas leasehold interests within the lands described in the caption hereof. The name and address of each party entitled to notice of this Application is as shown on Exhibit "A".

2. **ALLEGATION OF FACTS:**

2.1 That Sections 5 and 8, Township 17 North, Range 8 West, Kingfisher County, Oklahoma, will be established as 640-acre **horizontal** drilling and spacing units for the Mississippian (Less Chester) and Woodford common sources of supply by an order to issue in a companion spacing cause, and which order shall prescribe the following well location:

2.1.a Not closer than 660 feet from the unit boundary as to the Mississippian (Less Chester) common source of supply; and

2.1.b Not closer than 165 feet from the North and South lines and not closer than 330 feet from the East and West lines of the unit boundary as to the Woodford common source of supply.

2.2 That such well locations are not, in the opinion of Applicant and when taking into consideration all of the presently known conditions, proper for the drilling and spacing units and common source(s) of supply covered hereby. That to prevent waste and protect correlative rights the Commission should prescribe another well location for such drilling and spacing units and common sources of supply.

2.3 Applicant, as operator, is proposing to drill a multiunit horizontal well in the lands involved herein in the Mississippian (Less Chester) common source of supply, the Meramec portion being a Shale Reservoir, as defined by the Shale Development Act, OAC 165:10-3-28(b)(17), with a portion of the completion interval of such multiunit horizontal well to possibly be located in one or more of the 640-acre drilling and spacing units formed for the Associated non-shale portion of the Mississippian (Less Chester) and Woodford common sources of supply involved herein in said Sections 5 and 8. Applicant is proposing to drill the multiunit horizontal well involved herein at the following location:

SURFACE LOCATION: Will be specified in the final order to issue in this cause, but will be situated in the SE/4 of Section 8.

RECEIPT 1506590030
 OKLA CORP COM
 Date: 03/30/2015 Time: 14:26
 Case: 201501595 CD Cashier: GPT
 Payor: NEWFIELD EXPLORATION MID-CON
 DRCD: 92837 011309571000/1000 RFP

LOCATION OF WELLBORE (LATERAL) AT SECTION 8 COMPLETION INTERVAL: The proposed location of the end points of the completion interval will be no closer than 165 feet from the South line and no closer than 330 feet from the East line and no closer than 0 feet from the North line and no closer than 330 feet from the East line of Section 8, Township 17 North, Range 8 West, Kingfisher County, Oklahoma,

LOCATION OF WELLBORE (LATERAL) AT SECTION 5 COMPLETION INTERVAL: The proposed location of the end points of the completion interval will be no closer than 0 feet from the South line and no closer than 330 feet from the East line and no closer than 165 feet from the North line and no closer than 330 feet from the East line of Section 5, Township 17 North, Range 8 West, Kingfisher County, Oklahoma,

LOCATION OF LATERAL WITHIN THE MULTIUNIT: No closer than 330 feet from the East line of said Sections 5 and 8.

2.4 That the Commission should allocate to each of the affected units covered hereby the reasonable drilling, completion and production costs associated with the multiunit horizontal well involved herein and the commingled production and proceeds from the completion interval of such multiunit horizontal well. Based upon the information now available, Applicant is proposing that the allocation factor for each of the affected units involved herein should be determined by dividing the length of the completion interval of the multiunit horizontal well involved herein located in each such affected unit by the entire length of the completion interval of such multiunit horizontal well. In the event the lateral of the multiunit horizontal well involved herein stays within the productive portion of the Mississippian common source of supply throughout the drilling of such lateral, then Applicant anticipates that **approximately 50% of the completion interval of such multiunit horizontal well will be located in said Section 5, and approximately 50% of such completion interval will be located in said Section 8**, with the cost of and the production and proceeds from such multiunit horizontal to be allocated between the affected units involved herein based on such percentages. The actual allocation of such costs, production and proceeds may vary depending upon the results of the multiunit horizontal well involved herein.

2.5 That attached hereto as Exhibit "B" and made a part hereof is a map showing the location of each currently existing well in each of the affected units covered hereby and the approximate anticipated location of the proposed multiunit horizontal well involved herein. If the multiunit horizontal well involved herein is successfully drilled and if the results of such multiunit horizontal well are significant and if the price of natural gas is favorable, Applicant may potentially drill additional multiunit horizontal wells in the affected units covered hereby if such additional wells are approved by the Commission upon the filing of a proper application therefor at a future date.

2.6 That the proposed well, at the location requested by Applicant, is necessary to effectively and efficiently drain a portion of the common sources of supply (reservoir) covered by the drilling and spacing unit comprised of the land set out in Paragraph 4 hereof, which cannot be adequately and efficiently drained by a well drilled at the permitted well location prescribed in the orders listed in said Paragraph 4.

2.7 That the entire length of the lateral will be cemented such that the perforations will be isolated from the beginning and end point of the lateral.

2.8 That the Commission should designate the Meramec portion of the Mississippian

common source of supply as a Shale Reservoir, pursuant to the Shale Reservoir Development Act;

3. LEGAL AUTHORITY: 52 Okla. Stat. § 87.6 et seq., OAC 165:5-7-6.2 and OAC 165:10-3-28.

4. RELIEF SOUGHT: Applicant requests that the Corporation Commission of Oklahoma enter an order, to be effective as of the date of the execution thereof or as of a date prior thereto, as follows:

(A) Approving a multiunit horizontal well in the 640-acre drilling and spacing units formed for the Shale Reservoir comprised of the Mississippian (Less Chester) and the Woodford separate common sources of supply in Sections 5 and 8, Township 17 North, Range 8 West, Kingfisher County, so as to allow such multiunit horizontal well to be drilled as described above, and to be completed in and to produce hydrocarbons from the above-named separate common sources of supply, and establishing of a proper allocation factor for allocating the cost of and the production and proceeds from such multiunit horizontal well to each of the affected units covered hereby; and

(B) Granting such other and further relief as may be proper based upon the evidence presented at the hearing herein.

The legal descriptions of the land sections adjacent to the area within which the location exception lies are Sections 31, 32 and 32, Township 18 North, Range 8 West, and Sections 4, 6, 7, 9, 16, 17 and 18, Township 17 North, Range 8 West, Kingfisher County, Oklahoma. Applicant further requests that Applicant or some other party be authorized the right to drill said well. Applicant further requests that it be permitted to produce said well at said location from all common sources of supply covered hereby without any downward allowable adjustment.

Respectfully submitted,

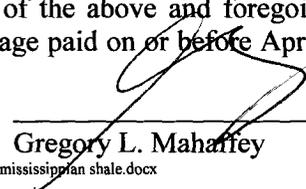

MAHAFFEY & GORE, P.C.
