

2110

INSTRUCTIONS

- Form must be completed in its entirety and mailed to the appropriate District Office within 30 days after plugging is completed.
- Send original and one (1) copy
- Type or use BLACK ink only
- API No. must be on form. To get an API No. call Petroleum Information at (405) 848-9824.
- In specifying the type of plug use the following notations: CIBP - cast iron bridge plug; CEM - cement plug; CIBP + CEM - cast iron bridge plug and cement; Packer - packer. If other abbreviations are used, please define.
- Cement plugs shall be placed in the well bore as required by the Rules of the Commission plus any additional plugs as may be specified by the District Manager or his representative, where unusual local conditions exist. (OAC 185:10-11-8)
- The minimum amount of cement normally used in each plug in the open hole shall be a slurry volume equal to the amount necessary to fill the calculated volume of 100 feet of the hole in which the plug is placed.
- A 30 foot cement plug is required to be placed near the top of the well. (OAC 185:10-11-8)
