To Whom It May Concern,

We have approved the transfer of 713 wells on the attached 1073MW (2 parts) from Linn Operating LLC (22182) to Scout Energy Management LLC (23138).

Two of the lined through wells are duplicates. The other lined-through well (pg 28) was not transferred. It is an injection well and will need to be submitted on form 1073I.

There are 4 that I have corrected the API. They are on pages 12, 14, 22 & 29.

Scout Energy will need to file an amended 1002A showing the current status for 61 terminated injection wells. There are also 4 wells that no 1002A could be located that will need to be filed. These are all noted on the spreadsheet. Normally you would need to do this within 30 days. If you have questions regarding the filing of the 1002A forms, you may contact Dennis Niskern at 405-522-2977.

There are new forms for transfers. 1073 for single well, 1073MW for 10+ wells, 1073I for single injection well, 1073IMW for 10+ injection wells. Fees for transfers went into effect August 25, 2016. The amounts of the fees are on the forms.
